CANVAS COURSE PROFILE

STUDENT PERFORMANCE

COURSE OVERVIEW

ASSIGNMENT AND SUBMISSION ANALYSIS

COURSE GRADE

COURSE ACTIVITY

COURSE OVERVIEW

Enrollment 138	Avg. Class Grade 91	Avg. Forum Entries 18
Avg. Logins 119	Avg. Interactions 2,751	

Course Overview tiles provide you with general information on how students are performing in your course from the average class grade to the average number of logins and interactions a student in your class has accumulated.

These averages are used for benchmarking each student in your class.

COURSE GRADE

Course Grade Benchmark

How are your students performing overall?

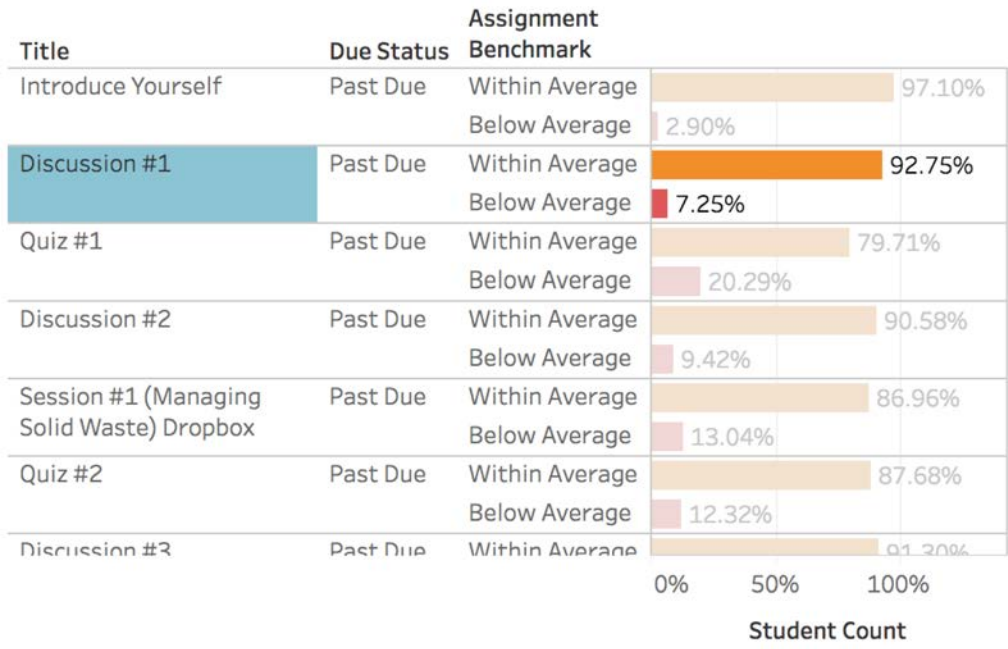

The course grade benchmark chart provides you with a visual representation of where your students currently stand in your class. Each square represents a number of students and allows you to easily drill down by clicking on it.

ASSIGNMENTS AND SUBMISSIONS

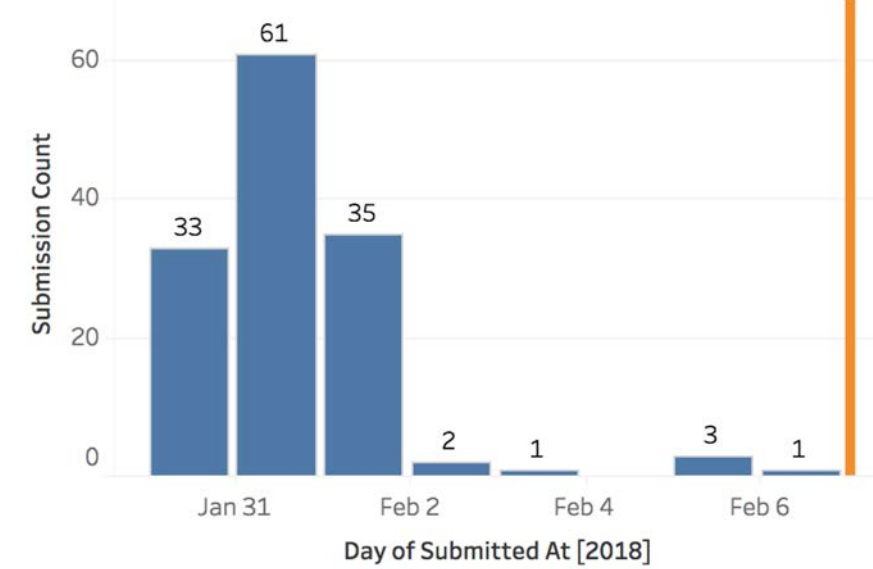

Assignment Benchmark

How are your students performing on your class assignments?

Submission Analysis

What are the submission trends for Discussion #1?

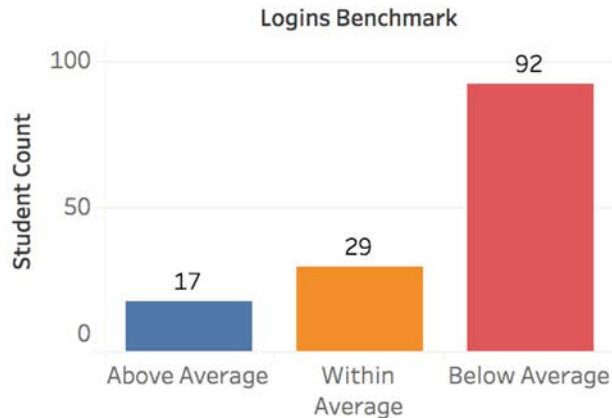

To populate this area, click on an assignment on the left to analyze submission trends. Note that if submissions are not received through Canvas, no data will be displayed.

The assignment and submission analysis charts will allow you to understand how are students performing for the different assignments in your class and understand the submission trends. This tool also allows you to easily drill down to students who are not performing within or above the average.

COURSE ACTIVITY

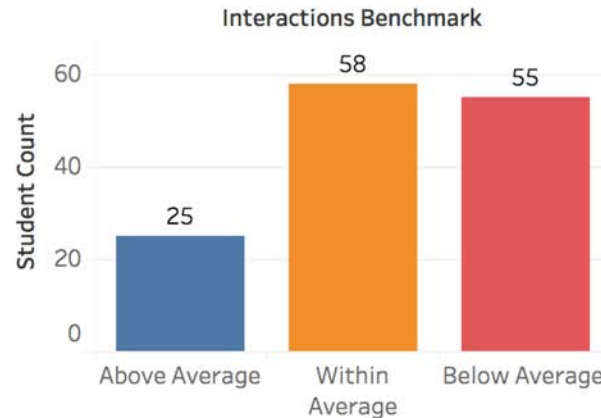

Logins Benchmarking

How often do your students login?

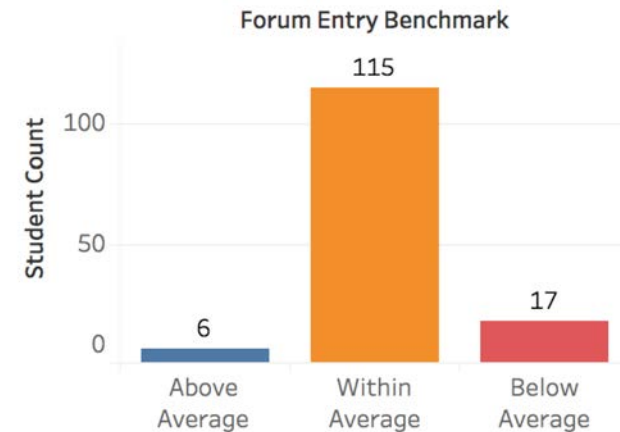

Interaction Benchmarking

How often do your students interact in the course?

Forum Entry Benchmark

How often are students replying in course forums?

The course interactions charts provide you with benchmarking of your students based on average logins, interactions (clicks) and forum entries (if any). As with previous charts, each bar allows for student detail drill downs.
