Match your settings to the ones seen in this image.*

Sharing Document Camera in Zoom:

1. Select '**Document Camera**' from the Crestron touch panel.
2. Select the green '**Share Screen**' button
3. Select '**Advanced**' at the top of the 'Share Screen' window.
4. Select '**Content from 2nd Camera**,' then select the blue '**Share**' button.
5. If the document does not show up first, select '**Switch Camera**' in the top left-hand corner of the screen until you see the document camera.

Add Another Video Source

Match your settings to the ones seen in the picture to the left.*

Video: HD Web Camera
Audio: Microphone (USB audio CODEC)
Quality: Standard

✓ Capture Computer Audio

Uncheck all secondary sources

Select '**Add Another Video Source**' and choose '**USB Video**' from the drop-down menu.

This will allow anything shown on the projector to be recorded in your session.

***Selections may vary depending on the specific classroom**
